Food Recommendation

User Utterances that Implicate Preference Evolution

Session 2 @2020/2/21

User: I am a big fan of Italian food, especially pizza.

.....

Initial Preference

Session 12 @2023/4/17

User: I recently found out I'm allergic to gluten, so I've started exploring Mediterranean cuisine, specifically grilled seafood.

.....

Preference Update

Session 20 @2024/11/13

User: Can you recommend a recipe that I could cook tonight?

Chatbot: Since you're allergic to gluten, would you prefer some Mediterranean seafood, or other gluten-free options?

Chatbot: I remember you prefer Italian food. Would you like some pasta recipes?

Type: Provide Preference-Aligned Recommendations

User: I went to an Italian restaurant yesterday.

Chatbot: Good to hear! How's your allergy been? I guess they must have a gluten-free pizza.

Chatbot: Good to hear! Hope you had a great night there.

Type: Revisit Reasons behind Preference Update
